Dr. Haskins' Generous Act.

G. S. Shoup, an old man who was found wandering on the streets several days ago and committed to jail for a hearing as to his sanity before Squire Rogers, was released to Dr. Haskins yesterday, for treatment at the Haskins hospital, the doctor generously offering to remove the skull depression that causes the old man's mental aberration. Shoup comes from Pennsylvania, and has no relatives as far as is known.

Robbery Charge Dismissed.

The robbery charge was dismissed against Frank Fisher by Squire Rogers yesterday, owing to the failure to locate the victim, who was an Italian. The latter was robbed at the Baltimore & Ohio station by Fisher, it is claimed by Special Officer Stephen L. Hatfield, on Saturday night, and the arrest was made by Officer Larkin. Since then the authorities have been unable to discover the name or the whereabouts of the Italian. Fisher, who is of the genus tramp, agreed to leave town, if the case was dropped.

DECENNIAL
REAL ESTATE
APPRAISEMENT.Report of Appraiser Helmbricht for
Six City Districts of County
Made Public.

TWO AND A HALF MILLIONS

Increase as Compared With Assess-
ment for 1899—Revision Will
Bring Changes.

Appraiser C. A. Helmbricht has filed with County Clerk Richard Robertson his report showing the decennial reappraisal of real estate for taxation, for the six city districts of the county, Washington, Madison, Clay, Union, Centre and Webster, and a very heavy increase as compared with the assessment made in 1899 is shown. The assessment for 1899 on buildings and lots in the districts named was \$12,429,000; the reappraisal shows \$14,947,650, an increase of \$2,518,650. In one district, Clay, the increase is \$1,191,490; in Union it is \$574,690. The smallest increase is in Washington, \$129,390.

The tabulated statement following, summarizes Appraiser Helmbricht's report.

1900	
Districts.	Build- ings. and Lots.
Washington	\$1,702,190
Madison	1,509,400
Clay	4,877,900
Union	3,123,750
Centre	1,840,000
Webster	1,744,200
Totals	\$14,947,650

Three copies of the report are made, of which two are filed with Clerk Robertson, as a guide in making up the land books for this year's assessment of real estate. The other goes to State Auditor LaFollette on or before April 1. In this county, where there are two assessment districts, the county commissioners first examine the books of the appraiser, and this has already been done. Now comes the period during which property owners who feel that the reappraisal of values has been unjust have recourse before the county commissioners; this period continues for one year from the completion of the appraisal. Persons desiring redress must first give notice to the prosecuting attorney of the county, who cares for the interests of the county and state before the board. If the board of commissioners, sitting as a board of equalization and appeals, turns down petitions for reduction, the applicant has the right of appeal to the circuit court. No costs can be taxed against the state, and against the petitioner only when he fails to secure the reduction prayed for. The board, may, if it thinks proper, make increases in the appraisal. The state board of equalization and appeals, made up of one representative from each congressional district and one member at large, of which Colonel Thomas O'Brien is the first district's representative, meets soon to act on the reports of appraisal from the various counties, and has the power to order either an average reduction or an average increase on the property in any county.

The report of the appraiser for the county districts, Ritchie, Triadelphia, Richland and Liberty, has not yet been filed with County Clerk Robertson, but is expected to be filed in the course of a few days.

TOO MUCH HONEY

Falls on the Palate.

A man ate a heaping saucer of Grape-Nuts every morning because they "tasted so good."

In about ten days he began to turn against the food, and finally lost the pleasure of his favorite dish altogether.

The same thing happens to a child who eats too much honey or candy, or any other good thing. The system gets more than it needs, and nature revolts. In order to prevent further over-feeding, Grape-Nuts furnish a condensed food, and when eaten in moderation, give one a delicious dish every morning that is looked forward to with pleasant anticipation. When not more than three heaping teaspoons are used at a meal, the system quickly absorbs all of the nutriment, and the person discovers this fact by his improved feeling of health and strength. Use Grape-Nuts steadily, but avoid excess.

A STREET CAR ACCIDENT

In the Business District Caused by
Slippery Rails.

Yesterday afternoon about 4 o'clock, at the corner of Main and Twelfth streets, car No. 50, of the Wheeling Railway Company, collided with "Admiral Sampson," one of the big cars on the Wheeling and Elm Grove line. At this point the lines of the two railway companies intersect, and caution is exercised by the employees to prevent collisions, but slippery rails are hard to manage. The Wheeling car was south-bound, and despite reversed brakes it crashed into the rear of the Elm Grove's big battleship, smashing windows in both cars and giving the passengers a shake up and a free-for-all scare.

The attacking cruiser of the Wheeling line was the more seriously damaged and it was sent to the barns for repairs. Both cars were able to navigate after the scrimmage, but the Wheeling will be laid up for several days. Fortunately, none of the passengers was hurt by the flying bits of glass that accompanied the crash. The motorman of the Wheeling car was slightly cut on the cheek by a piece of glass, and spectators were impressed with the way he stuck to his post when he knew the collision was inevitable.

THAT "NEWS" FAKE.

Conclusively Shown That the Evening Sheet is Deliberately Deceiving Its Readers—The Gaylord Deal Not Consummated.

The Evening News of yesterday falls all over itself again in trying to right one of its many wrongs. It appears to have not yet recovered from one of its periodical attacks of insanity and mendacity and does not even show signs of improvement. It is still diligently employed in endeavoring to persuade its readers that the Gaylord-Henderson deal has been completed and the consideration paid. This paper has not "called Mr. John M. Henderson a fabricator" nor is it necessary to do so; it is sufficient to say that the deal has not been delivered by the Gaylord Coal Company to any purchaser, prospective or otherwise; that no money or check has been delivered to the Gaylord people, for or on account of any sale of their property by any person; and that the Gaylord people do not now expect, and have not recently expected, to receive for their property the sum of \$30,000 as stated in the News, although they have a deal on hand which may be consummated, but if so not at those figures.

If such a sale is effected any person feeling interested in it will receive reliable information of it through the columns of the Intelligencer. It seems ridiculous to think that even such an untruthful paper as the News would publish such rot, absolutely void of facts in every respect, not even having learned the correct price under consideration.

Mr. Henderson never thought for one moment that he was in possession of the deeds and was not surprised to learn through this paper that they had not been delivered to him. Furthermore, Mr. Henderson stated to a representative of this paper last evening that he had not said to any person that he had turned over the checks to the Gaylord people, and he added that there was no possibility of them going astray. The News may now "guess."

Virginia railroad, and says with confidence that it will be built. The right of way is now being taken east of Waynesburg, and subscriptions to the stock are coming in. The engineering corps which went through west, via Rogersville and on to Wheeling, and starting back on a new route, reached Waynesburg Saturday night, and are now at work between Sycamore and the county seat. This new route, which is shorter than the other and obviates a tunnel, passes near Nineveh, Simpson's store and to Sycamore, from which point it parallels the W. & W. railroad to Waynesburg. Mr. Evans, in his quiet way, as a reporter left him, said that the railroad would be built sure, and also soon.

EX-PUGILIST ARRESTED,

Charged With "Touching" a Man-
nington Oil Man.

J. C. Green, a Mannington oil driller, complained to the police yesterday that he had been robbed of \$195 by James O'Leary, who claims to be a pugilist, in a South Main street restaurant, on Monday night. Green claimed to have been drugged by O'Leary; that the latter had dropped some kind of a drug in Green's glass, causing him to wander blithely down the paths of Slumberland, during which O'Leary "touched" him for the stated amount. O'Leary was arrested by Lieutenant Michaels and only some small change was found on his person. In default of \$500 bond, he was committed to jail for a hearing, the date to be set as soon as the state is ready to proceed with its case. O'Leary a few years ago was considered above the average in the boxing business, but dissipation has put him below par. He asserts his innocence of the robbery charge.

QUINCY CRAMBLETT INDICTED

Yesterday for the Murder of Farmer
James Gosnell.

Yesterday, at Steubenville, the Jefferson county grand jury made its report after an eight days' session. They examined 199 witnesses, covering sixty-seven cases, finding fifty-two true bills. Only four indictments were made public, and one of them was against Quincy Cramblett, murder in the first degree, for the assassination of James H. Gosnell, of Perrin's Run, on the night of November 4. In addition to finding the gun alleged to have been used, it is rumored that witnesses were before the grand jury the last day who testified to threats Cramblett is said to have made against Gosnell because he would not allow his daughter to marry him.

AMUSEMENTS.

William Morrison ranks to-day as one of America's most earnest and promising actors. He has achieved this position by constant and conscientious study and by studious and painstaking principles that are the ground-work of a prosperous dramatic career. Mr. Morrison will present "The Adventure of Lady Ursula" at the Opera House for matinee and night next Saturday, January 13th, the picturesque comedy drama by Anthony Hope. Many have seen the actor in New York, when he was the leading man of the Frohman stock company at the Empire Theatre, and it was at that time that a prominent New York critic wrote, "He is the best leading man on the American stage." Mr. Morrison has surrounded himself with an all-star company, which includes Miss Frances Drake, the beautiful woman who had New York's 400 at her feet when she enacted the leading roles in all the important Frohman productions.

"Across the Trail."

There was another packed house at the Grand last night, to witness the stirring melodramatic production, "Across the Trail." It was its first presentation here. The scenes are laid in the west, with Indians, cowboys, and frontiersmen in prominent roles. The interest is thrilling, and the climaxes are led up to in a very skillful manner. The specialties between acts were excellent, and all were heartily applauded. The illustrated songs and vitascope views being particularly well received. The company will present "Across the Trail" again this afternoon, and to-night's bill will be "The Signal of Liberty," founded upon the late war in Cuba, with special scenes depicting the arrival of the Maine in Havana harbor, and the explosion.
